

The ultimate Shasta Lake experience...

Silverthorn Resort & Marina and Shasta Lake provide the winning combination for your dream vacation. Shasta Lake offers something for everyone and Silverthorn Resort & Marina is the ideal gateway for your Shasta Lake Vacation.

Thirty thousand acres of clear water are surrounded by hundreds of miles of unspoiled shoreline. Wildlife abounds in and around Shasta Lake, and for the fisherman there are 16 varieties of fish. Calm water that averages a temperature of 75 degrees in the summer makes swimming and water sports favorite activities on Shasta Lake.

Located on the popular Pit River Arm of Shasta Lake, Silverthorn Resort offers some of the most luxurious houseboats available. Each houseboat is a complete floating "suite" offering convenient kitchens with a dishwasher, trash compactor and plenty of cabinet and counter space. Even the dishes, pots, pans and silverware are included. No matter what boat suits your needs, your houseboating adventure is sure to be an outstanding experience!

Silverthorn Resort offers more than just houseboats. There is a full-service marina complete with fuel and pump out facilities. A floating store provides groceries, bait, tackle, ice, cold beer, soda, and much more!

During the summer season, the best pizza and best views of Lake Shasta can be found at the Silverthorn Pizza & Pub. Our full bar offers a relaxing atmosphere where you can watch your favorite sports on our big screen tv's or play a game of pool with friends. From the large outside deck, the scenic views of beautiful Lake Shasta can't be beat.

Live entertainment, dancing and special events are also held throughout the summer months. Visit our website for schedules and more information at www.silverthornresort.com.
